

# Window to the Sky

[Kim Churchill](#)

I was running for the hills, I knew no more about today  
We came back with sinking froth, lead the way not much to say  
My selections crawled away, to deal with this mess  
Falling at my feet, I knew my time was going down, wasn't long  
Sinking into me, what can I do for you and what do you want?  
What do you love? To my window to the sky  
To my window to the sky  
Falling down, I thought I had it all wrapped up inside my head  
But I was rearranging thoughts for other's eyes instead  
Falling at my feet, I knew my time was going down, wasn't long  
Sinking into me, what can I do for you and what do you want?  
What do you love? To my window to the sky  
To my window to the sky  
To my window to the sky  
And there were times when I thought I could hold somebody's hand,  
That I deserved it and someone would understand  
But I just seem to break the people that I find  
To my window to the sky and I'm thankful for you today  
To my window to the sky and you're right, I feel okay  
A pair of diamonds in her eyes, will be so sure to walk away To my window to the sky  
To my window to the sky  
Falling at my feet, I knew my time was going down, wasn't long
