What I Live For

Luminate

This is the moment, this is the new year
This is my life now, this me waking up
'Cause I was sleeping, just barely breathing
Until You found me, until You picked me up
And gave me something to believe in
Your love is everything I've ever neededYou're what I live for
When my hope is shattered
You're what I live for
When everything is closing in on me
You're what I live forUsed to be empty, I was a cynic
Drank in the darkness, this is me giving up
All of the history, all of the old me
Because You changed me, because You filled me up
And gave me something I could call my own
Your love is everything You are my homeYou're what I live for
When my hope is shattered
You're what I live for
When everything is closing in on me
You're what I live for[Incomprehensible]
[Incomprehensible]You're what I live for
Yeah, You're what I live for
When everything is closing in on me
Yeah, You're what I live for, yeahThe only thing
The only thing worth living for
Be my everything, oh
