So Stung

Howie Day

How will you overcome this impression?
When the life that you lead is second guessing me
And so you've come for things you left behind
You left me here with all this on my mind, I'll be fineNow I feel so stung
Now I feel so stungAll I wanna feel is affected
And all you want to be is protected
When you realize you're on your own
The wind can push the sails and drive you home, this I knowNow I feel so stung
You got the best, you got the best of me
Now I feel so stung
You got the best, you got the best of meI can see it come and go
Can you feel it? We hit the ceiling
You can feel the undertow
Can you feel it? I guess we'll never knowWhen you realize you're on the shore
The wind can push the sail and drive you homeNow I feel so stung
You got the best, you got the best of me
Now I feel so stung
You got the best, you got the best of meNow I feel so stung
You got the best, you got the best of me
Now I feel so stung
You got the best, you got the best of me
By you, by you
