Leave It Behind

Crowbar

Grown so tired of the burning inside Rising above Live confined time to leave it behind Leave it behindBrick by brick got to tear it all down Bringing it down Been so hard got to set myself free Learn to be freeI'll be strong Too far to turn back I'll be strongDay and night got to live with myself Die with myself Still I strive that is all I can do All I can doBrick by brick learn to tear it all down Bringing it down Live confined time to leave it behind Leave it behind, leave it behindI'll be strong Too far to turn back I'll be strong
