

# Tie The Leaves

Esterlyn

We keep on putting these efforts into this  
It appears we've chosen to impress those who  
Those who believe everything is just alright  
But within we know we're scared to be ourselves

This time (This time) can we get it right now  
Finally make it right now  
We seem to fight for what we are not  
What we're passing through a lot  
Tie the leaves on trees so they won't come down (so they won't come down)  
This time can we get it right

They told us now it wouldn't be too long  
But it's not too much to fight for this song  
We told ourselves everything would be ok  
But now it just seems so cliché

This time (This time) can we get it right now  
Finally make it right now  
We seem to fight for what we are not  
When we're passing through a lot  
Tie the leaves on trees so they won't come down (so they won't come down)  
This time can we get it right

Emotions lessening with every breath  
I'm exhausted and alone  
It's piercing home  
It's piercing home

So pick me up  
Cause there's still hope  
There's still hope

This time (This time) can we get it right now  
Finally make it right now  
We seem to fight for what we are not  
When we're passing through a lot  
Tie the leaves on trees so they won't come down (so they won't come down)  
This time can we get it right
