

# Somebody to Miss You

T. Mills

You need somebody to miss you Always knew this would be gold  
Ever since I met you in coach in yo fur pink coat  
And then I hit it that night, I was somebody who kissed you  
Fucked around and missed you  
Your body that misses  
You need somebody to teach you When I'm callin callin  
I don't ever get you get you  
For someone so perfect perfect  
I wonder what you been through been through  
Cus we've got some problems  
And we've all got issues  
But you just need somebody  
Need somebody to miss you  
Need somebody to miss you  
Need somebody to miss you  
You need somebody to miss you She she she got some kind of stress and stuff  
She need a couple dots to connect herself  
And she can't find the way to respect herself  
And she's all out of people she can text for help  
But the switch to her lips will probably through you off  
Have you think that she's the one to go and show you off  
She wanna push me away, I just wanted to try  
You need to call over my phones, but I dial cause When I'm callin callin  
I don't ever get you get you  
For someone so perfect perfect  
I wonder what you been through been through  
Cus we've got some problems  
And we've all got issues  
But you just need somebody  
Need somebody to miss you  
Need somebody to miss you  
Need somebody to miss you  
You need somebody to miss you Girl I need somebody like you  
And I'll do your body right  
Know how to treat you  
And I'm tryin to reach you  
I've been dying to let you know  
You need somebody Girl I need somebody like you  
And I'll do your body right

Know how to treat you  
And I'm tryin to reach you  
I've been dying to let you know  
You need somebody to miss youNeed somebody to miss you  
Need somebody to miss you  
You need somebody to miss you
