

Where the Moon Still Shines On

Robbie Stewart

Where the moon still shines on the Moonshine Still
Down in the valley Mama, by the foot of the hill
Where the moon still shines on the Moonshine Still
Down in the valley Mama, by the foot of the hill

(First Verse 1):

I was caught between the pages of a book of memories
Where every character took me to a place I wanted to be
While, flippinâ€™ through those pages, those dreams and destines
The music soon took me to that place I wanted to be

(Chorus):

Where the moon still shines on the Moonshine Still
Down in the valley Mama, by the foot of the hill
Where the moon still shines on the Moonshine Still
Down in the valley Mama, by the foot of the hill

Ah, sweet, sweet memories, bring them on home to me
Where the Pleasant-Valley-Boys would play all night
At Country Jamboree
Oh, set your mind with ease at Country Jamboree

(Second Verse):

Now do you like to dream or wish upon a star?
If all your stars faded would you still be where you are?
And out there in the city, a country girl at heart
Sheâ€™s rollinâ€™ down the river with the city
