

Go

The Vandals

I think I got a plan, we're gonna make a stand-

Let's Go! go! Go! go! Go! go! Go! go!

Stand up and be counted, get out of the house

Take it to the streets, tell everyone you meet

It's Go! go! Go! go! Go! go! Go! go!

Time to get what's yours. Kick down all the doors We'll start tomorrow, or maybe tuesday

Tear down the walls and show no fucking mercy

Next week is good for me

We'll make them fucking see

got follow though, initiative and skills to make a change! CHORUS:

The time has almost come, Stand up and be someone Finish up with dinner, and join up with the winners I mean

for real this time, at least just kind of try When I say "Go" you say "Go" Go! go! Go! go! Go! go! Go!

We gotta think it through, I know what we should do Let's Go! go! Go! go! Go! go! Go! go! Wait right here for now, until we figure how.

To overthrow the land, and finish our demands

and Go! go! Go! go! Go! go! Go! go!

End all our repression, and teach the man a lesson Let's talk it through again, and call up all our friends together unified- is unity united

then it's decided we will fight....soon CHORUS:

The time has almost come, Stand up and be someone Finish up with dinner, and join up with the winners I mean

for real this time, at least just kind of try When I say "Go" you say "Go" Go! go! Go! go! Go! go! Go!

We'll start tomorrow, or maybe tuesday

Tear down the walls and show no fucking mercy

Next week is good for me

So let's just wait and see

There can't be an attack until we know we've got a plan! CHORUS:

The time has almost come, Stand up and be someone Finish up with dinner, and join up with the winners I mean

for real this time, at least just kind of try When I say "Go" you say "Go" Go! go! Go! go! Go! go! Go!
