Repetition

Information Society

I'm coming back to you just like before
I've been a lonely boy since I walked out your door
If there's a life for us I don't know
But I can't live like this anymoreThe time I spend alone has nothing to giveIt's repetition, I'm coming back to you
Repetition, the only thing I can doI'm coming back to you this time to stay
If I've learned one thing, it's that I can't stay awayThe time I spend alone has nothing to give
The life I lead alone has nowhere to liveIt's repetition, I'm coming back to you
Repetition, the only thing I can doAnd I can still recall how you would hold me
The way a vast wave broke so slowlyIt's repetition, I'm coming back to you
Repetition, the only thing I can do
Repetition and we can see this through
It's repetition, I'm coming back to you
