

# Big FU

Krizz Kaliko

I don't even see any one of us changin  
The more I wish for, the more stays the same  
If everybody did me right it'd be amazing  
I pray about it, feels like it's in vein I got a big stage to play for, really know what I came for  
I'm too big to be ignored, thank God I'm still employed  
Tattoos say love me, but I think it don't  
So I pour Hennessey down my throat, to forget about it I don't really know how to be real, no  
I keep burning this candle at both ends, can't handle it  
What am I to do, you can't help me, it's a big FU  
Cause I keep wishing for more, can't be ignored  
Too real for TV, I can't say no more  
What am I to do, no you owe me B-I-G F-U If I get up from here, you better run, you better run  
If I get up from this chair, you better move, you better run Now I'm the only one out here that's crazy  
Walk a mile in my shoes, you'd feel the same  
I go through this life with a big chip on my shoulder  
If you ever stepped on me, you made me that way I got a big stage to play for, really know what I came for  
I'm too big to be ignored, thank God I'm still employed  
Tattoos say love me, but I think it don't  
So I pour Hennessey down my throat, to forget about it I don't really know how to be real, no  
I keep burning this candle at both ends, can't handle it  
What am I to do, you can't help me, it's a big fuck you  
Cause I keep wishing for more, can't be ignored  
Too real for TV, I can't say no more  
I forgive what you do, no you wronged me B-I-G F-U If I get up from here, you better run, you better run  
If I get up from this chair, you better move, you better run They tell me it's about the way that I done made  
Understand the booty you and I have ate  
See I party, cause my heart aches I don't really know how to be real, no  
I keep burning this candle at both ends, can't handle it  
What am I to do, you can't help me, it's a big FU  
Cause I keep wishing for more, can't be ignored  
Too real for TV, I can't say no more  
I forgive what you do, no you wronged me B-I-G F-U If I get up from here, you better run, you better run  
If I get up from this chair, you better move, you better run
