

# Ouija

## Summer Twins

Something's gotta change, I feel it in my veins  
Like a sunny sky turns into rain  
Let it thunder, let it pour  
Let it shake me to the core  
Something's gotta change, I feel it in my veins  
Something's gotta go, I feel it in my bones  
I open up my arms to the unknown  
Find the spirits, set 'em free  
Tell them where to find me  
Ouija, would you tell me all that surrounds me  
All that's within me  
Give your spells to me  
Something's gotta give, just tell me what it is  
Prisoner of my dreams, I need to live  
Help me out, find a key  
Leave me for eternity  
Ouija, would you tell me all that surrounds me  
All that's within me  
Ouija, would you tell me all that surrounds me  
All that's within me  
Give your spells to me
