

Sparkle

No Doubt

Never ever ever gonna the same
Never gonna be the same x4Nothin new youve gotten us in before
People like you fade in and out
Somehow we got lost in the travels
Why did the world unravel us?
And how it wasAnd sometimes I feel like I just passed you by
And left you standing in your pain
But you were the one with the magic
You were the one with the sparkle
And you had it allChorus:
I know its never gonna be the way it was
How can it?
Feelings change and people can get lost
But I still think of you so much
Do you remember how it was?Never ever ever gonna the same
Never gonna be the same x2So whatcha doin while another day goes by?
And whatcha that thinkin in your head?
I just want you to be happy
Please let me know if you are
The way you wereChorusInstrumentals
(Never ever ever gonna the same
Never gonna be the same x3)ChorusNever gonna be the way it was
How can it?
Feelings change and people can get lost
But I still care about you so much
Do you remember how it was?I still care about you so much
