

Free Time

TEEN

Free from the steel
Get behind the wheel
(On my free time)
Got the world under my feet
Pounding on a newly paved street
(On my free time)
The highway is as clear as glass, as glass, yeah
Visiting hours are a thing of the past, yeah
Did he forget this day was my last, yeah
I won't forget this day was his last, yeah
My free time
Could I break the power?
My free time
Fall asleep in the shower
My free time
Have a drink on the hour
Yeah I think I'll have a drink on the hour
Followed me home pretending you were happy
I never had a second of my own time
The moment you let go in front of me
I'll take every minute of your...
Free time
Your free time
Your, your free time What a shame that you've been so naive, la, la, la, la
A little spiced rum, some cake and some tea, la, la, la, la
I don't have any sugar left on my tongue, la, la, la, la
You took that away as soon as I succumbed Followed me home pretending you were happy
I never had a second of my own time
The moment you let go in front of me
I'll take every minute of your...
Free time
Your free time
Your, your free time
All I had was some memory of Lake Lewman
A pretty little lake I'd go swimming in as a child
I woke up from a deep deep sleep
Barely recalling the scent on my skin
And you see this is not something I forgot easily
It came back to me night after night

Dream after dream
Obsessed
I came with a different kind of amends
To get back to that dock where I would
Dive, I would dive
I would die, die
To go swimming in that water
Dive, I would dive, dive
I would die, die
To go swimming in that water
My free time
Oh my free time
Oh my free time
Oh my free time
