

# You Part the Waters

## Cake

You part the waters  
The same ones that I'm drowning in  
You lead your casual slaughters  
And I'm the one who helps you win You've got your grand piano  
You don't even play piano  
I'm the one who plays piano  
You don't even play piano, alright You part the waters  
The same ones that I'm thirsty for  
You invite your friends to tea  
But when it's me you lock the door You've got your credit cards  
And you thank your lucky stars  
But don't forget the ones  
Who foot the bill
