Advance Cassette

Britt Daniel

Getting caught's made me think it over
And it told me that you're never coming back here again
We've been doing things the same way for so long
That it took me abackBut I don't think Ill ever hear that sad song againNow don't tell me Ive lost you, advance cassette, oh no
I just can't believe it
No, don't say that Ive lost you, advance cassette, oh no
I just can't believe itAdvance cassette
Advance cassette
Advance cassetteYou'll know by the look on their faces when they pass you
You've been dropped off on the Texas highway
Ive been out here now for so long
That Im not sure how you wound me so tightIm afraid I won't ever hear that sad song againSo don't tell me Ive lost you, advance cassette, oh no
I just can't believe it
No, don't say that Ive lost you, advance cassette, oh no
I just can't, can't, can't, can't, can't, can't believe it
