Face the Tide

Monster High

Come on all you monsters
We're going down under water
Another world won't you come and see
Yeah, Yeah, Come on now

So don't be scared of what's hidden in the deep
Hold your breath come on and just flow with me
Yeah, Yeah, Come on now

Oh If you wanna, face the fright (x2)
Well you then you gotta face the tide (fix the tide, yeah)
And everything will be alright, oh yeah
Come on let's shake the fear
Don't you wanna go get outta of here whooo

Ay Yo Oooh Lala
No matter where we are
You're a star
You just wait and see
You're a monster
Be who you want to be

Ay Yo Oooh Lala
No matter where we are
You're a star
You just wait and see
You're a monster
Be who you want to be (Alright x3)

Let's go to the land down under
Where dreams are made underwater
Oh don't be BLUE
Cause the ocean is BLUE enough
for me and you oo ooo

this is my kind of day
let's hit the beach and rob the grave
like hey now
Boo what you boo
I'm gon' be me so you just do you

oh

If you wann face the fright (x2)
well then you gotta face the tide (Face it x2)
and everything will be alright
oh yeah, come on
Let's shake the fear
Don't you wanna go get outta of here
Wooo

Ay Yo Oooh Lala
No matter where we are
You're a star
You just wait and see
You're a monster
Be who you want to be

You're a monster
be who you want to be
You're a monster (Hey)
Be who you want to be (come on)
You're a monster
be who you want to be (x2)
I'll face the fear, just dare me dare me
All so necesscary scary

Hold your breath come on
and just flow with me
Yeah (x 11)

Ay Yo Oooh Lala
No matter where we are
You're a star
You just wait and see
You're a monster
Be who you want to be

Ay Yo Oooh Lala
No matter where we are
You're a star
You just wait and see
You're a monster
Be who you want to be
