

Love Me Like a Song

[Kimmie Rhodes](#)

Put your arms around me
Listen to my heartbeat now
If you want to love me
Baby, I can show you how Love me like a song
Sweet as a melody
Learn all the words to me
And sing along, find the harmony The rhythm and the rhyme
To me, on and on
All night long
Love me like song I want to be the melody
You can't get out of your head
Think of me as words of love
A poet might have said
