Upside Down

The Story So Far

Twenty-four staring in your face
Like it's the front of the door
I know right now is hard cause this all feels like a chore
I don't want this as a job help me find something more
I cannot tell the ceiling from the floor
Is this really what you want?
Swear I never meant to haunt
All I ever do is taunt
Couldn't handle how you flaunt
Now it's quiet on the front
Has been for so many months
Now it's wild to remember
I was in love with you once
It's all love now
Upside down
It's all love now
upside downLet me go, cut the leash before
I lose us in a bad undertow
Have to channel how you made me feel
To play every show
Make my snide suggestions about
The things I don't know
I will not catch a feeling I'll just float
All that time across the pond
All this resin in my lungs
No more room to shoulder on
Am I even having fun?
Colin's sleeping with his gun
Scott is looking for the one
Mark is going by Ryan now that we've all had our run
It's all love now
Upside down
It's all love now
upside downCarry baggage I can't put down
Every show, every night, every town
Carry baggage I can't put down
Every show, every night, every townIt's all love now
Upside down
It's all love now

upside downIt's all love now
Upside down
It's all love now
upside down
