

Underground

Lindsey Buckingham

Give us a song
But don't live what you sing
Say what you mean
But please don't mean a thing I think I might wander underground
I think I might wander underground They heard fifteen seconds
And that was enough
The idea was new
But the business was tough I think I might wander underground
I think I might wander underground I go to my lover
We lay on our bed
Did I sell my heart
For the dreams in my head I think I might wander underground
I think I might wander underground
