Secrets out unfold
Whispered words be warned
Falling into one
It's you I still believeFelt, so alive
Wish I could hold
It's already full
So phase me out of your life
It's all, it's all, it's already fullTreat the son our own
Haven't seen him grow
Held the hand we lost
It's you I can't recallFelt, so alive
Wish I could hold
It's already full
So phase me out of your life
It's all, it's all, it's already fullSecrets out unfold
Whispered words be warned
Falling into one
It's you I still believeAlright
Feeling alright, alrightAnd I still believe
All that we couldn't see
And it seems so wrong
But I wish I could
Never willIt's already full
It's already full
It's all, it's all, it's already
Full, fullIt's already full
[incomprehensible]
It's already full, full
