## OneSideZero

Secrets out unfold  
Whispered words be warned  
Falling into one  
It's you I still believeFelt, so alive  
Wish I could hold  
It's already full  
So phase me out of your life  
It's all, it's all, it's already fullTreat the son our own  
Haven't seen him grow  
Held the hand we lost  
It's you I can't recallFelt, so alive  
Wish I could hold  
It's already full  
So phase me out of your life  
It's all, it's all, it's already fullSecrets out unfold  
Whispered words be warned  
Falling into one  
It's you I still believeAlright  
Feeling alright, alrightAnd I still believe  
All that we couldn't see  
And it seems so wrong  
But I wish I could  
Never willIt's already full  
It's already full  
It's all, it's all, it's already  
Full, fullIt's already full  
[incomprehensible]  
It's already full, full
