

September (Acoustic) [Live] [Studio]

One Less Reason

I saw your headlights in the window, my face was pressed against the glass
I waited years for you to return before I learned that you were never coming back I'm going to close my eyes
before I start to scream I'm dwelling on things I've never noticed,
you won't save yourself you're never going to save me
I only stumbled once for a moment and it was over,
I think I'll close my eyes before I start to scream You said today's the day goodbye just won't wait [Chorus]
If you need me to I'll wait until September.
It's come and gone Novembers on it's way.
So easy to forget and hard to remember
The way to getting back our self esteem The lines on your face are getting clearer, to me you'll always be 23.
They said you wouldn't hold on too much longer but you're so much stronger
Then they ever thought you'd be I'm going to open up and tell you everything. [Chorus] No regrets. You've got
no one left!
I hope that every step reminds you of the ones that you left. [Chorus] They said you wouldn't hold on too much
longer but you're so much stronger
Then they ever thought you'd be
