

Concede

Roger Grund

Concede and believe me
I won't give up, I won't give out on you
Concede and believe me
I won't give up, I won't give out on you
Oh no, no, no, la la la la la, you, oh no Now hear I promise to listen
Why won't you go for that?
Hear I promise to hold you
Why won't you go for that? If I had wings and I could fly
Well I'd still walk with you
If I had a safe place to lie
I'd want to lay with you Concede and believe me
I won't give up, I won't give out on you
Concede and believe me
I won't give up, I won't give out on you
Oh no, no, no, la la la la la, you, oh no So now you shut off and you shut down
Won't let nobody in
When you shut off and you shut down
Won't play that fool again I've seen your inside, you stay inside
And I won't go for that
I've seen your quarters
Seen your crooked sacred pictures on the wall Concede and believe me
I won't give up, I won't give out on you
Concede and believe me
I won't give up, I won't give out on you
Oh no, no, no, la la la la la, you, oh no I'll be your jester, be your fool
Compromising fool
I'll be your jester, be your fool Concede and believe me
I won't give up, I won't give out on you
Concede and believe me
I won't give up, I won't give out
