Space Travel

Savoir Adore

I heard a voice last night
It said, "Wake up and open your eyes
Wake up, walk out tonight
'Cause she don't care if you're
Dead or alive, dead or alive"She moves like beams of light
Straight through this universe in my head
Where I get peace of mind
I'm free from the stupid things that I said
She's all in my headDid I get lost while I was gone?
I traveled space for much too long
But there's a planet I have found
And you are far awaySomewhere behind her eyes
Some supernatural energy
Takes me for quite the ride
Across time where I defy gravity
Or this energyDid I get lost while I was gone?
I traveled space for much too long
But there's a planet I have found
And you are far away for, now(three person dialogue)
so what do we do now?
we wait.
wait for what?
for her to come back.
i don't think she's coming back.
i'm so sick of waiting.
sure we can expect her to come back?
well, I came back.
so what's going to happen?
We breathe.
What? No way.
Really?
Just breathe.
Just breathe, we got no other choice.
You've gotta be kiddingDid I get lost while I was gone?
I traveled space for much too
Did I get lost while I was gone?I traveled space for much too long
But there's a planet I have found
And you are far away, far away
You are far away

You are far away for, now
