

And So I Tried to Sleep

[Greg Laswell](#)

I dreamt that you have problems that only you can solve
I dreamt that you are not a hypochondriac at all So I tried my best and went right back to sleep I dreamt that you
are funny
And that the joke is on you
I dreamt that you are sunburned
And that gravity has no effect on you So I tossed and turned and tried my best to sleep I dreamt that you hate
your excuses
And that you are last in line
I dreamt that you wake up before noon
And that you take your precious time So I tossed and turned and tried my best to sleep
