

Rat Race

Mandators

Here we come again
In another styles
And this one is a rat race style
Here we come again it is not just another song
Rat race style is a crucial style
We're coming live and direct, just to make you feel ire
Oh it's a Rasta man style eh, come make we listen to the lyrics
They say I'm talking politics but I'm singing reality
For the suffering of the masses, so my brothers I'm feeling so right
Situation getting worse only the poor feel the pain
The fury falls on them, don't close your eyes to reality
And it's a rat race style yeah
Them having make we suffer
In thema rat race style yeah
Them having make we shiver
In thema rat race style yeah
There's no hope for survival
In thema rat race style yeah
Them having make we shiver (shiver)
Oh what a bad situation
Only the rich and the strongest nations survive
They ignite evil things that their money could buy
Only the rich nations would live to see that the others would die
They don't feel any guilty
They keep sending their guns for you to die
To make the world so hard for no reason every season
What a shameless race shadows were they really anything
What a rat race style yeah
Them having make we suffer
In thema rat race style yeah
Them having make we suffer
Oh this is a rat race style yeah
There's no hope for survival
In thema rat race style yeah
Them having make we shiver (shiver)
In the people in the world struggling for survival
Trying to earn a living but their presence are just too strong
The rich keep getting richer
And the poor getting poorer

Their life is getting harder
 The tension keep rising so hard
 Them know ohh
 Oh what a great tribulation (watch out!)
 You got to get up and fight survival battle
 Them keep sucking our blood
 Them making we fools
 They really wish to live to see that we have no strength
 You better know now!
 We know them a guilty
 They keep tearing on the less privilege people
 Jah Jah will surely set them free on this great tribulation
 The weak will prove too strong to see that they all will die
 And in a rat race style yeah
 There is no second on the papers
 In thema rat race style yeah
 There is no second on papers
 Oh its a rat race style yeah
 Only the fittest and the fittest survive
 In thema rat race style yeah
 From the century to the sentry
 Oh its a rat race style year
 Them having we run around and round
 Oh the rat race the rat race the rat race, the hopeless race
 (Them having make we shiver)
 Oh this is a rat race style yeah
 Them having make we suffer
 In thema rat race style yeah
 Them having we suffer
 Oh this is a rat race style yeah
 There's no hope for survival
 Oh the rat race, the rat race, the hopeless race
 Oh this is a rat race style yeah
