

# My Addiction

## Mr. Strange

You're bad for my health,  
I don't think for myself,  
I'm a match, you're paraffin,  
I'm a needle, you're heroin,  
I know you're killing me,  
I can't quit, I need you in me,  
I'm a mess, you're death in a dress,  
Go ahead, take my breath, And they say it's not natural,  
But it comes naturally to me,  
Our love is fiction,  
You're my addiction, You and me, we're deadly lovers  
Too blind to see we'll destroy each other,  
One more fix, then I swear I'll quit,  
Make it quick, I can't take it I need the light, you makes things black,  
You throw me away, I keep coming back,  
There's rot, I'm almost gone,  
If I die, you'll just move on,  
Take aim and look in my eye,  
Do your worst, I won't ask why,  
You're my drug, I'm shaking and weak,  
You're a relapse I'm bound to repeat And they say it's not natural,  
But it comes naturally to me,  
Our love is fiction,  
You're my addiction, You're rotting me from the inside out, but,  
You're in my veins and I can't go without,  
You're my addiction, I'm gonna break, oh,  
I need to be sedated,  
Too much to take, I know,  
You're overrated, I'm gonna break, oh,  
You're gonna break me, aren't you?  
Too much to take, oh no,  
I think I want you to, You and me, we're deadly lovers  
Too blind to see we'll destroy each other,  
One more fix, then I swear I'll quit,  
Make it quick, I can't take it.
