Already Gone

She Craves

Tell me a secret, c'mon, c'mon
Closer to a ledge, standing on the edge
Isn't it fun

You give me something, that's for sure
But I've got a bad, feeling what we have
Is headed for the door

If you wanna play there's another way
Come a little closer see what I will say
Hit me with it once, hit me with it twice
Come around
I'm already gone when I'm with you
Already gone when I'm with you

You give me reasons, I knew you would
Every little crack keeps me coming back
It's understood

You take the pleasure, mix it with pain
Something that you said, something that I read
That I can't explain

If you wanna play there's another way
Come a little closer see what I can take
Hit me with it once, hit me with it twice
Come around
I'm already gone when I'm with you
Already gone when I'm with you, you...

And what you say, what you do
It doesn't really matter what you say

Kiss me, kiss me and make it good
I've got a feeling that someday you'll wish you could

I've got a secret, c'mon, c'mon
There's never been another like you
And it's been fun
But I'm already gone when I'm with you

Already gone when I'm with you
Already gone when i'm with you
Already gone when i'm with you, you

And what you say
What you do
I doesn't really matter what you say, yeah
