Gotta Have Me Go With You

Judy Garland

What a spot this,
Not so hot this,
Hey there shy one
Come by my one
Please don't rush off
Want no brush-off
I can't compel you
To buy what I'd sell you
But I'd like to tell you like so
You want to have bells that'll ring
You want to have songs that'll sing
You want your sky a baby blue
You gotta have me go with you
Hey, you fool you
Why so cool you
When I'm ready to go steady
You want to have eyes that'll shine
You want to have grapes on the vine
You want a love that's truly true
You gotta have me go with you
Why the hold out
Have you sold out
Time you woke up
Time you spoke up
This line I'm handin' you
Is not a handout
As a team we'd be a standout
No doubt!
You want to live high on a dime
You want to have two hearts in rhyme
You gotta have me go with you
All the time
