

# Love Heals

W.E.T.

Theres a voice thats crying from the wasteland  
Says I dont know where to go from here  
Ive been gone so long here in the wasteland  
My days and months turn to yearsNoise inside my head  
It scares me half to deathBut love heals, love feels alive  
Cause loves here when youre by my side  
And love frees, loves real this time  
And love sees the man here inside  
Love heals  
Love healsI have tried so hard to be a sane man  
But my demons never disappear  
I have hurt you, cursed you but you still stand  
Helping me to see my fearNoise inside my head  
It scares me half to deathBut love heals, love feels alive  
Cause loves here when youre by my side  
And love frees, loves real this time  
And love sees the man here insideLove healsWhoa oh, oh oh  
Whoa oh, oh oh  
Whao oh, oh oh ohAnd love heals, love feels alive  
Cause loves here when youre by my side  
And love frees, loves real this time  
And love sees the man here insideWhoa oh, oh oh  
Whoa oh, oh oh  
Whao oh, oh oh ohCause love heals  
Yes love heals  
Its true, love heals
