Admit It

Patti Witten

Change can be so subtle, settling like dust
You don't know that you're in trouble
cuz you haven't changed that much
Call it sentimental, go on shrug it off
Deny what you can?t handle
it?s harder to be soft
When you drive too fast at night
when you lie to make it right
when you break it
you say that you liked it rough

Come on, admit it
You won?t admit it
You just don?t know when enough is enough

No wonder that you?re angry on your side of the door
With a pocket full of pennies
you can?t spend here anymore
Who will see you walk away
Who will free you the same way
that you left them
you won?t get them to open up

Change can be so subtle
settling like dust You don't know that you're in trouble
cuz you haven't changed that much

Come on, admit it
You won?t admit it
You just don?t get it
Come on, admit it
You just don?t know when enough is enough
