Take Me Home Please

Reggie and the Full Effect

Asking me discretely, when she can come meet me
Later on tonight
Talking super softly, how we both look gothy
But it's alrightDon't tell me what you're doing to me
I don't want to look sleazy
But you make it seem so easyAnna, please get off the phone now
I've got to let you know now
It's time for you to take me home
Anna, please get off the phone now
I've got to let you know now
How much you mean to meKissing me so slowly shouldn't be this lucky
Like we're in a movie
Smiling at me in the moonlight
Wish this could be every night
And every night and every night againDon't tell me what you're doing to me
I don't want to look sleazy
But you make it seem so easyAnna, please get off the phone now
I've got to let you know now
It's time for you to take me home
Anna, please get off the phone now
I've got to let you know now
How much you mean to meAnd I'd still be waiting
When all this starts fading, it's true
You don't even know how much I need youAnna, please get off the phone now
I've got to let you know now
It's time for you to take me home
Anna, please get off the phone now
I've got to let you know now
How much you mean to meAnna, please get off the phone now
I've got to let you know now
It's time for you to take me home
Anna, please get off the phone now
I've got to let you know now
How much you mean to me
