## Take Me Home Please

## Reggie and the Full Effect

Asking me discretely, when she can come meet me Later on tonight

Talking super softly, how we both look gothy But it's alrightDon't tell me what you're doing to me

I don't want to look sleazy

But you make it seem so easyAnna, please get off the phone now

I've got to let you know now

It's time for you to take me home

Anna, please get off the phone now

I've got to let you know now

How much you mean to meKissing me so slowly shouldn't be this lucky

Like we're in a movie

Smiling at me in the moonlight

Wish this could be every night

And every night and every night againDon't tell me what you're doing to me

I don't want to look sleazy

But you make it seem so easyAnna, please get off the phone now

I've got to let you know now

It's time for you to take me home

Anna, please get off the phone now

I've got to let you know now

How much you mean to meAnd I'd still be waiting

When all this starts fading, it's true

You don't even know how much I need youAnna, please get off the phone now

I've got to let you know now

It's time for you to take me home

Anna, please get off the phone now

I've got to let you know now

How much you mean to meAnna, please get off the phone now

I've got to let you know now

It's time for you to take me home

Anna, please get off the phone now

I've got to let you know now

How much you mean to me
