All That Matters (feat. Stella Marie)

Majorleap

All That Matters

A bold and harder way, I will not force you to stay, that is all that matters
It will be cold and gone someday, changing my own way, that is all that matters
Stop me before I die, I'm still keeping truth to a lie...
Stop me before I die, I'm still keeping truth to a lie...

It's a shot in the dark, it's my shot to keep her
Keeping truth to a lie, maybe I love her
Kept my visions on ice, was my way to hold her
Ambitions in life, that's how I got her

Finding your own home, at least your're not alone, that is all that matters
The poverty in my own life, won't be hurt by the richman's knife, that is all that matters
Stop me before I die, I'm still keeping truth to a lie...
Stop me before I die, I'm still keeping truth to a lie...

It's a shot in the dark, it's my shot to keep her
Keeping truth to a lie, maybe I love her
Kept my visions on ice, was my way to hold her
Ambitions in life, that's how I got her
That's how I...

That's how I got her...
That's how I got her...
