

# Very Special Friend

Joe

I gotta find, I gotta find a special friend  
A little bit of sexiness  
That's all I need  
Someone I can kick it with (oh)  
Won't put no pressure on me  
And when the rain comes fallin' down  
Will you be there for me  
I need a whole lot of loyalty  
I need you down on my team  
You see  
I been through too much drama in my life  
You see  
Every chick so far's been wasted time  
You see  
I need someone so special in my life  
I need that special friend  
Gonna search around the, world  
'Til I find that, girl  
New York, Georgia, Cali 'cross the water  
Gonna find my baby, girl  
Precious like a... pearl  
I need a very special friend  
(Very very very very special friend)  
To be my baby girl to the very end
