

# Metronome (feat. Roses Gabor)

## Redlight

Move in to the metronome  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
I need to control  
Cause I really wanna let it go  
Move in to the metronome  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
Move in to the metronome  
I need to control  
Cause I really wanna let it go  
Move in to the metronome  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
Move in to the metronome  
I need to control  
Cause I really wanna let it go  
I need to control

Cause I really wanna let it go  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
Move in to the metronome  
I need to control  
Cause I really wanna let it go  
Move in to the metronome  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
Move in to the metronome  
I need to control

Cause I really wanna let it goHey  
Move in to the metronome  
Hey  
I need to control  
Cause I really wanna let it go  
Hey  
Move in to the metronome  
Hey  
I need to control  
Cause I really wanna let it goWon't wait until it's all over  
Won't wait until it's all over  
Won't wait until it's all over  
Won't wait until it's all over  
Won't wait until it's all over  
I really wanna let it go  
I really wanna let it go  
Move in to the metronome  
Move in to the metronomeMove in to the metronome  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
Move in to the metronome  
I need to control  
Cause I really wanna let it go  
Move in to the metronome  
Move in to the metronome  
Move in to the metronome  
Let the beat set the tone  
Move in to the metronome  
Move in to the metronome  
I need to control  
Cause I really wanna let it goHey  
Hey  
Move in to the metronome  
Move in to the metronome  
Hey  
I need to control  
Cause I really wanna let it go  
Hey  
Move in to the metronome  
Hey  
I need to control  
Cause I really wanna let it go
