

# She's So California

[Adam Gregory](#)

Bleach blonde hair and no tan lines at least  
That's what I dream at night star dust eyes  
That shine pacific blue from her toes to her  
Halo she's been blessed with a body

You would have to buy out west she walks  
And talks a different attitude her smile  
Is so much brighter than this stupid place  
You can almost here Hollywood calling her name  
She's so California she should have a star

On Hollywood blvd. drive around in a Lamborghini sports car  
Summer sun clear yeah she's sexy she's so sunset  
Strip teases me here right there on the front porch swing  
I swear I hear the beach boys sing peach street sign  
Just like Rodeyo drive tight tank top and low rise jeans  
Now I know what earthquake means  
She really makes this small town come alive  
When she walks into church in her summer dress  
Oh even the preacher has to confess

She's so California she should have a star on Hollywood blvd.  
Drive around in a Lamborghini sports car  
Whisper words callin' the menace copper tone medal  
Hillbilly baby walkin' sweet talkin' angel in Memphis
