Big Thing

Elf Power

Get it up, get it out, get it in time
Hang it up, hanging out, hanging on a big thing
Move it in, move it out, move up the line
Bang it up, bang it out, banging on a big thingBrothers and sisters, let me hear it
Get it up, get it on, get it in time
Give me the green light and watch me move it
Move it up, move it out, move up the lineThis is temptation power rotation
Give me the friction and watch me make it
Make it up, making out, making it slideSo glad you came along
This time you won't be wrong
You love to turn it on
And you're not the only oneBrothers and sisters, we can take it
Shake it up, shake it out, shake it all the time
Give me the suction, we can stick it
Lick it up, suck it up, stick it outsideThis is temptation, power rotation
(Station to station)
Give me the play list and watch me eat it
Eat it up, beat it up, beat it in timeSo glad you came along
This time you won't be wrong
You love to turn it on
And you're not the only oneGet it up, get it out, get it in time
Hang it up, hanging out, hanging on a big thing
Move it in, move it out, move up the line
Bang it up, bang it out, banging on a big thingGet it up, get it out, get it in time
Hang it up, hanging out, hanging on a big thing
Move it in, move it out, move up the line
Bang it up, bang it out, banging on a big thing
