Running for Our Lives

Marianne Faithfull

Move along staying close to the wall
Looking over your shoulder just in time
Avoid the light, close your eyes
And put your hand in mine, and put your hand in mineAre we in danger or is it that
You think we might be
But I think I'd like to get out of here
This place it frightens me, this place it frightens meRunning for our lives
At least we're pretending we are
Running for our lives we never get very far
We never get very far, we never get very farStop pretending
This is a child's adventure
The only way I can take it
Is playing the gameBe quiet, there's a gate ahead
Do you think we can make it?
Will it be different or just the same?
How long can we keep escaping
How long can we keep escaping
How long can we keep escaping into another prisonRunning for our lives
At least we're pretending we are
Running for our lives we never get very far
We never get very far, we never get very farMove along staying close to the wall
Looking over your shoulder just in time
Avoid the light, close your eyes
And put your hand in mine, and put your hand in mineRunning for our lives
At least we're pretending we are
Running for our lives we never get very far
We never get very far, we never get very far
We never get very far, we never get very far
We never get very far, we never get
