

# See Me

## Luther Vandross

Yesterday was the first time  
That I didn't hear from you  
Almost felt like the world had ended  
What was I to do?  
'Cause you're the one for me  
And only you can be my love fantasy  
You lift me up higher, you're who I desire  
I just love what you do to me  
And oh, don't leave me waiting too long  
Come by and see me  
You need love, baby  
I need love, baby  
See me, hurry, baby  
I can't hide my emotions  
It never turns out right  
And without you, there was no one  
To get me through the night  
Well, I have never cried so much  
For anybody else's touch  
I even scared myself  
And what a way to spend my time  
Hoping for even one line  
From you and no one else  
I really need you here with me  
See, all these lonely nights keep  
Messing in with my mind  
I'm so satisfied  
I asked you to come on by  
'Cause I know soon you'll be by my side  
And, oh, you won't keep me waiting too long  
When you come by to  
See me  
You need love, baby  
I need love, baby  
See me, hurry, baby  
Come to me, girl  
My whole world is empty and sad without you  
Come make me better  
You need love, baby

I need love, baby, baby  
You need love, baby  
I need love, baby, baby  
See me  
You're the one for me  
And only you can be my love fantasy  
You lift me up higher, you're who I desire  
I just love what you do to me  
And oh, don't leave me waiting too long  
Come by and see me  
See me, hurry, baby  
See me, need love, baby  
I need love, baby  
See me, you need love, baby  
See me, see me
