

# Can't Stop This!

Sam Sparro

I got something in my hands that you want  
And I am ready to hand it over  
But I got something that I gave you is not enough  
And you tell me that you need another  
Well, I see that this is just an issue out of control  
And you sit there nice and tidily  
You were hoping that I'd be the one to fix your mold  
But I am not feeling quite spritely  
I can't stop this  
(Feels like I am falling)  
I won't drop this  
(Holding it so carefully)  
Do I want this?  
(My wish is to surrender it)  
I can't stop this  
(La la la la come sing it, come sing it)  
Well, you came along right when I needed you  
At least I thought that I did  
See I've always done just what I wanna do  
But now I don't do what you to forbid me  
You got me on a leash that's tight  
Now I don't know what to write  
Don't know where I am going  
If I can't see the light  
If this parachute won't open  
I was never meant to land  
If you find my body  
Won't you please tell her man?  
I can't stop this  
(Feels like I am falling)  
I won't drop this  
(Holding it so carefully)  
Do I want this?  
(My wish is to surrender it)  
I can't stop this  
(La la la la come sing it, come sing it)  
Casually manipulated, the less I got, the less I can be  
Like to thank you for your friendship, you really care  
Eyes are open but I feel like I am inside a dream

Please wake me up  
I won't drop this  
Do I want this?  
I can't stop this  
(I can't stop it, no)  
I can't stop this  
(Feels like I am falling)  
I won't drop this  
(Holding it so carefully)  
Do I want this?  
(My wish is to surrender it)  
I can't stop this  
(La la la la come sing it, come sing it)  
I got something in my hands that you want  
I got something in my hands that you want  
I got something in my hands that you want  
I got something, I know you want it
