I Think

Days Of The New

It feels so good outside, I think I'll stay here
And if you want to die, I think I'll care
Same kind of gateway without time
The rocks are tumbling
If you want to die, I think I'll careI don't want to say it happened to me
I am going away, I think I'll careIt feels so good outside, I think I'll stay here
If you want to die, I think I'll care
Same kind of gateway without time
The rocks are tumbling
If you want to die, I think I'll careI don't want to say it happened to me
I am going away, I think I'll careBlame me all you want, there's nothing I will say
I will only think I will only pray
Tell me how it is show me how it goes
I know how you are, I know how you areBlame me all you want there's nothing I will say
I will only think I will only pray
Tell me how it is show me how it goes
I know how you are, I know how you areBlame me all you want, there's nothing I will say
I will only think I will only pray, yeah
Tell me how it is show me how it goes
I know how you are, I know how you areIt feels so good outside, I think I'll stay here
And if you want to die, I think I'll careI don't want to say it happened to me
I am going away, I think I'll careI think I'll care, I think I'll care
I think I'll care, I think I'll care
I think I'll care, I think I'll care
