

# Hole In My Soul

## Kaiser Chiefs

Strike up the band  
Give yourselves a great big hand and all together now  
All together now, strike up the band  
Bring down the house  
Once more with feeling now, I'll try to make it count  
It's all for you so take a bow And everybody gave up  
Until we start from the top again  
Take it all from the top, the top, the top, the top There's a hole in my soul  
That could only be filled by you again  
There's a hole in my soul  
That could only be fixed by two It can never be filled, never be filled  
Never be filled by anyone else but you  
It can never be filled, never be filled  
Never be filled by anyone else but you Whip up the crowd  
Get 'em going nice and loud but you're the only one I see  
You're the only one, it's you and me  
Strike up the band  
Give yourself a great big hand and all together now  
Stay together, hold onto my hand And everybody gave up  
Until we start from the top again  
Take it all from the top, the top, the top, the top There's a hole in my soul  
That could only be filled by you again  
There's a hole in my soul  
That could only be fixed by two It can never be filled, never be filled  
Never be filled by anyone else but you  
It can never be filled, never be filled  
Never be filled by anyone else but you Find each person and the world is sane  
We're just the same  
We're the same  
Oh, we different by name  
We're the same, the top, the top, the top, the top There's a hole in my soul  
That could only be filled by you again  
There's a hole in my soul  
That could only be fixed by two  
There's a hole in my soul  
That could only be filled by you again  
There's a hole in my soul  
That a galaxy could fit through
