

Temper Temper

Envy On the Coast

temper temper,
I never wanted to be temper temper,
I never wanted to be Mr. Mr,
I can't hold it in.

noo...
never never,
I had a feeling this would never never,
I had a feeling this would never leave,
I've got a wick to burn my skin.

temper temper,
I never wanted to be temper temper,
I never wanted to be Mr. Mr,
I can't hold it in.

noo...
never never,
I had a feeling this would never never,
I had a feeling this would never leave,
I've got a wick to burn my skin; yeah.

so I bottled it up,
and kept the words to myself,
and let the anger collect for a better day.
When the words are aged,
the war is waged; and you'll watch me blow.
I can be your powder keg; oh yeah,
if you can be my fuse.
clever clever,
give me a reason to be clever clever,
give me a reason to be placing all my
trust in your hands.

noo...
never never,
don't even fuck with me; never never,
I tell myself that I know;
but I'll never know more than your name.
so I bottled it up and kept the words to myself,

and let the anger collect for a better day.

when the words are aged,
the war is waged,
and you'll watch me blow.
I can be your powder keg.
if you can be my fuse.

don't don't don't don't don't worry doll,
I only kill him in my sleep.
knock knock knock knock knock at your door.
you know I will send him out to sea.
so I bottled it up and kept the words to myself,
and let the anger collect for a better day.

when the words are aged,
the war is waged,
and you'll watch me blow.
I can be your powder keg.
if you can be my fuse.

temper temper,
I never wanted to be temper temper,
I never wanted to be Mr. Mr,
I can't hold it in.
