

One False Move

Reckless Kelly

Is this what it comes down to
Hit or miss, its either me or you
All you get is one false move My friend you're gonna have to choose
Sink or swim, it's either win or lose
In the end theres only one false move At first glance were still in this game
Theres a desperate chance that hope may still remain
Until we come to see the error of our ways
Were just one false move away Its the cost of our endless needs
Idle thoughts and wicked deeds
Leave me lost with nothing to believe Foolish pride wouldnt let you leave if you tried
If I beg and plead and besides
Theres no honor among the thieves At first glance were still in this game
Theres a desperate chance that hope may still remain
Until we come to see the error of our ways
Were just one false move away At first glance were still in this game
Theres a desperate chance that hope may still remain
Until we come to see the error of our ways
Were just one false move away
Were just one false move away
Were just one false move away
