

Tobacco Spit

Bare Jr.

Reel this spool of string
Strap the life jacket as tight as can be
Oh, we can fish and fry

Wave your last goodbye, could you see?There's too much tobacco spit on these stringsSo, you wanna sing next
to me

You look tall on the woody seats
Oh, we can fish and fry

Wave your last goodbye, could you see?There's too much tobacco spit on these stringsSo you wanna walk on
the moon

You'll be a hero back at the school
We can fish and fry

Wave your last goodbye, could you see?There's too much tobacco spit on these strings
There's too much tobacco spit on these strings
There's too much tobacco
