Advisory - the following lyrics contain explicit language:

I'm snowed in and my batteries dead
flights delayed and my friends were late
then you forgot to wind your watch
don't forget to watch out when you wind me up
It just wouldn't stop
I couldn't even love,the handle stuck
I just gave up, I got left behind
I thought that you were right
searching in devise how could you spin me your love's- liesAnd I'm hanging on 'cause I wanna
and the feelings gone but I got to
and I'm hanging on 'cause I wanna
and the feelings gone but I got to
Miling hearts and my broken arm
the train blew up and I'm feeling fucked
we ran away until we reached the states
the night became a darker shade of purple gray
bush fire in my phone lines
no man's land that wasted spacin in
the lights went out and the voices shouted
(Get on the floor)
black bagged me then they dragged you screaming out the doorAnd I'm hanging on 'cause I wanna
and the feelings gone but I got to
and I'm hanging on 'cause I wanna
and the feelings gone but I got to
'cause I wanna
but I got to
'cause I wanna
but I got toMachine guns, Afghanistan, ('cause I wanna)
our micro ways and pepper sprays,('cause I got to)
a poison dart and throw your stars
strike my heart and leave me lying in the blood'cause I wanna
but I got to

'cause I wanna
but I got to X2
