

North and South

Hey Marseilles

I want you to see
All the simple parts of me
I need you to know
Where I come from when I go Only in the darker nights do I
Even try
Slow my breath and leave the rest aside
Your'e my light I've gone north and south
Turned this insdie out
I'm not sure I'm through
From the farthest place
I look back and say
I belong with you I keep what I can
At the bottom, away from them
And you reach for it all
Through the floorboards until I fall Only on the brighter days do I
Even try
Slow my breath and leave the rest aside
You're my night
I've gone north and south
Turned this inside out
I'm not sure I'm through
From the farthest place
I look back and say
I belong with you
From the farthest place
I look back and say
I belong with you
