Soylent Green (Bonus Track

Iced Earth

The earth has suffered over population
All our rations have been dominated
We look to them for answers to our hunger
Food made from you and i
Increasing their supplyThe land is stripped and so barren
Our people must take a stand
Luxuries passed are now savored
We can't even live off the landCorruption eating us alive
Our guts are filled with their liesHumans controlled and in turmoil
Defy and you're taken away
The secret is kept from the people
Their lives are left to decayIn line, denied, they've had enough
No food, no work, they must rise upTheir greed has left us all for dead
We are so unaware
They encourage suicide
The truth we must unveilOne man will come to expose them
He'll be a thorn in their side
Danger around every corner
The order must defiedDescend upon their wickedrule
People need to know they're fooledNourishment made in a compound
Sustenance from you and I
Taken and processed to feed them
Death will increase their supplySwallow their lies you satisfy
Accept your fate before you dieTheir greed has left us all for dead
We are so unaware
They encourage suicide
The truth we must unveilWe need to stop them some way, somehow
The truth was hidden
From the people until know
Your final moments are so serene
It's humans that they're eating,
It's Soylent Green
