View From Heaven

Yellowcard

I'm just so tired
Won't you sing me to sleep
And fly through my dreams
So I can hitch a ride with you tonight
And get away from this place
Have a new name and face
I just ain't the same with out you in my life
Late night drives
All alone in my car
I can't help but start
Singing lines from all our favorite songs
And melodies in the air
Singing
